Greetings from the Department of Defense (DoD),

Thank you for supporting the DoD Vulnerability Disclosure Program (VDP).

By submitting this report, you acknowledge understanding of, and agreement to, the DoD Vulnerability Disclosure Policy as detailed at [@DeptofDefense](#).

The VDP Team will review your report to ensure compliance with the DoD Vulnerability Disclosure Policy. If your report is determined to be out-of-scope, it will be closed without action.

We will attempt to validate in-scope vulnerability reports and may request additional information from you if necessary. We will forward reports with validated vulnerabilities to DoD system owners for their action.

Our goal is to provide you with status updates not less than every two weeks until the reported vulnerability is resolved.

Regards,

The VDP Team

Yeah I took a bit of break. Decided to take a look at old reports of mine and look for any similar vulnerabilities in them that might of existed. Clearly I did find some of them. :p

ag3nt-z3 updated the severity to High.

Mar 12th (2 years ago)

ag3nt-z3 changed the status to ○ Triaged.

Mar 12th (2 years ago)

Greetings,

We have validated the vulnerability you reported and are preparing to forward this report to the affected DoD system owner for resolution.

Thank you for bringing this vulnerability to our attention!

We will endeavor to answer any questions the system owners may have regarding this report; however, there is a possibility we will need to contact you if they require more information to resolve the vulnerability.

You will receive another status update after we have confirmed your report has been resolved by the system owner. If you have any questions, please let me know.

Thanks again for supporting the DoD Vulnerability Disclosure Program.

Regards,

The VDP Team

ag3nt-z3 added weakness "Information Disclosure" and removed weakness "Insecure Storage of Sensitive Information".

Another example, leaks email

ag3nt-j1 closed the report and changed the status to ○ Resolved.

Jul 11th (about 1 year ago)

Good news!

The vulnerability you reported has been resolved and this report is now closed. If you have any further questions or disagree that the report is resolved, please let us know.

Thank you for your time and effort to improve the security of the DoD information network.

Regards,

The VDP Team

alyssa\_herrera requested to disclose this report.
